SECTION 3.0

SCOPE OF SERVICES

3.1 BACKGROUND

The City of North Miami on behalf of the City of North Miami Community Redevelopment Agency (CRA) is requesting proposals from professional urban planning and/or architecture consulting firm (the “Consultant”) with expertise and demonstrated experience in transit station area planning in anticipation of the planned NE 125th Street FEC Passenger Rail Station. The South Florida Regional Transportation Authority (SFRTA), in partnership with the Tri-Rail Coastal Link, the Florida Department of Transportation (FDOT), and the Regional Planning Councils (RPC) along the Florida East Coast, is in the final stage of a passenger rail service that will run along the Florida East Coast (FEC) Railway. This rail service will improve access to multiple destinations within numerous municipalities, neighborhoods and activity centers along the FEC Railway. The area around NE 125th Street and the FEC Railway, which is located within the jurisdictional boundary of North Miami, was selected as one of the 28 potential station locations identified and analyzed by the SFRTA. As a result, the City Council passed and adopted on March 8th, 2016. Resolution No. 2016-R-29 in an effort to lend support to this SFRTA-led initiative. Through the recently adopted 2015 EAR-Based Amendments to the City’s Comprehensive Plan, the City Council further supported this initiative by calling for a Transit-Oriented Development (TOD) designation within a quarter-mile of the planned transit station, and further authorizing the City’s administration to ultimately perform station area analysis followed by a land use map amendment to create a Transit Center Overlay District around the NE 125th Street Passenger Rail Station.

3.2 LAND USE CONTEXT

The entire NE 125th Street Passenger Rail Station Planning Area is within City Council District #2, potentially located at the intersection of the FEC Railway and NE 125th Street and consists of a quarter of a mile radius surrounding the potential location of the planned station. According to the 2015-2035 Future Land Use Map (FLUM), the land uses within a quarter-mile of the planned transit station feature Low-, Medium-, and High-Density Residential, Commercial, Community Facility (Johnson and Wales University), Industrial, as well as Mixed-Use Low land use designations. The zoning classification of the properties within the station planning area are mostly consistent with the underlying land use. In addition to the base zoning districts, the area comprises parts of both the Arts and Design Overlay District (ADO) and Neighborhood Redevelopment Overlay District (NRO).

3.3 PURPOSE

As previously stated, the City is seeking to procure the services of qualified and experienced Consultant to develop a detailed Station Area Plan (the “Plan”) for a planned NE 125th Street FEC Passenger Rail Station. The purpose of this Plan shall identify, leverage and maximize TOD opportunities, and demonstrate the potential of these opportunities in terms of capacity, density, detailed site design elements, integration into neighborhood structure, and principles for future TOD redevelopment around the station area. Furthermore create a mixed-use character that will demonstrate a type of urban development that blends residential, commercial, cultural, open space, institutional, or industrial uses that encompasses a place to live, work, recreate and spur economic development through job opportunities. The Plan should serve as a guide for public and private decision-making and investment in the coming years as it relates to land use changes, urban design, accommodations for mixed-use development, pedestrians and bicyclists, and associated improvements related to transportation, mobility and infrastructure associated with the station planning area. The Plan should build on previous planning and study efforts, including, but not limited to, the 2005 Transit-Oriented Development Study, the 2013 Downtown Development and Major Corridor Master Plan, the 2015 Parking Inventory and Needs Study and the Tri-Rail Coastal Link Station Area Market and Economic Analysis. It is the City’s desire to create a Plan that speaks to the vision of a transit-oriented environment, one that fosters mobility, walkability, accessibility, and that connects North Miami to rest of the region.

3.4 **SCOPE OF WORK**

The Consultant selected for the Plan shall demonstrate an understanding of integrated land use, transportation planning, complete streets planning, facility design, open space, bicycle and pedestrian planning, community-based planning, design of public spaces, multimodal transportation modeling and analysis, station access planning, transit-oriented land use, economic development associated with transportation, and community engagement. Consultant shall provide examples of expertise in visual simulations and demonstrate knowledge of Leadership in Energy and Environmental Design for Neighborhood Development (LEED-ND) analysis. The City and selected Consultant shall present the study and its findings to key stakeholders, and to the CRA Board, Planning Commission and City Council, in accordance with required legal mandates. The Consultant is expected to integrate relevant, completed and ongoing studies, into the final products prepared for the Plan.

In accordance with Policy 1.3.7 of the Goals, Objectives and Policies of the Future Land Use Element (FLUE) of the City's 2015 EAR-Based Comprehensive Plan Amendments, the vision for the Plan must include, but not be limited to:

- ☐ Graphic illustrations of intended physical character of area;
- ☐ Recommendations for land assembly that may provide alternatives for station location;
- ☐ Expected transit mode and anticipated ridership;
- ☐ Existing physical conditions;
- ☐ Identify all major employers, residential developments, institutional/education uses, entertainment destinations, and other potential generators of concentrated ridership for the transit system;
- ☐ Potential for intensification and diversity of land uses around the station, including the creation of a community park and encouraging mixed-use;
- ☐ Any phasing of public investments that would aid in an orderly transformation toward transit-oriented development;
- ☐ Identification of park-and-ride facilities that are proximate to the transit stop that do not interfere with transit oriented development around the station;
- ☐ Market analysis and potential aggregated development program illustrating a preferred mix of uses to assist in the evaluation of individual TOD projects within the station area;
- ☐ Provide enough detail to serve as a basis for rezoning the station area into a form-based zoning district of varying intensities;
- ☐ Serve the local community facility (Johnson and Wales University);
- ☐ Provide incentives to help assure the feasibility of development and redevelopment; and
- ☐ Integrate the ADO that will enhance and promote the North Miami Public Art Program.

In light of the foregoing vision of the Plan, the following is meant as an illustrative list of tasks that is not intended to be an exhaustive scope of work. Nevertheless, the Consultant may vary and expand upon this list, providing reasoning for any alternative approaches.
